Integra Publishes Annual Sustainability Report

Vancouver, British Columbia – Integra Resources Corp. ("Integra" or the "Company") (TSXV: ITR; NYSE American: ITRG) is pleased to announce the publication of its 6th annual Sustainability Report (the "Report") covering the producing Florida Canyon Mine ("Florida Canyon") and the DeLamar Project ("DeLamar") and Nevada North Project ("Nevada North") (together, the "Development Projects"). The Report highlights the Company's first full year as owner and operator of Florida Canyon in northern Nevada and, at DeLamar, the signing of a historic Relationship Agreement with the Shoshone-Paiute Tribes of the Duck Valley Reservation. The Report aligns with the International Financial Reporting Standards ("IFRS") Sustainability Accounting Standards Board ("SASB") Metals and Mining Standard and covers Integra's activities and performance from January 1, 2025 to December 31, 2025.

Environmental, Social, and Governance ("ESG") Highlights:

- Environmental:
  - Achieved zero reportable spills at Florida Canyon and the Company's Development Projects.
  - Maintained strong water management performance, with no exceedances of water discharge permit limits.
  - Enhanced baselines for stream and wetland mitigation work by surveying approximately 122 acres of wetlands and approximately 116,000 feet of streams at DeLamar.
  - Partnered with Trout Unlimited to explore a potential U.S. Environmental Protection Agency Good Samaritan remediation project for abandoned mine sites in the Jordan Creek watershed, outside DeLamar.
  - Continued support of the Jordan Valley Rangeland Fire Protection Association ("RFPA") and worked in collaboration to combat the threat of rangeland wildfires.
- Social:
  - Signed the Relationship Agreement with the Shoshone-Paiute Tribes of the Duck Valley Reservation.
  - Integrated all Integra employees into a combined benefits and retirement program.
  - Contributed more than US$400,000 to local communities through donations, sponsorships and in-kind support.
  - Supported over 23,400 people through community programs and strategic investments.
  - Connected with more than 14,500 individuals through meaningful outreach and stakeholder engagement efforts.
  - Incurred one lost-time injury and seven reportable injuries.
  - Implemented a hazard recognition program at Florida Canyon as a leading safety indicator, with more than 300 hazards reported and rectified in December 2025 alone, demonstrating strong workforce adoption.

- Operations:
    - Advanced a major Florida Canyon fleet expansion, commissioning a Hitachi EX3600 shovel, a CAT 992HL wheel loader, and two new CAT 785 haul trucks in 2025, with six additional CAT 785 haul trucks added to the mining fleet in 2026.
- Governance:
    - In 2025, 20% of corporate objectives were ESG-linked, and 90% of those objectives were met.

George Salamis, President, CEO and Director of Integra commented: "2025 was a defining year for Integra. In our first full year operating Florida Canyon, we began to establish a mining operation built on our values, investing in the people, equipment and systems needed to sustain the mine in the years ahead. At DeLamar, years of meaningful engagement culminated in a Relationship Agreement with the Shoshone-Paiute Tribes of the Duck Valley Reservation, a milestone we are particularly proud of. Together, these achievements reflect our commitment to responsible mining and building lasting relationships with the communities where we operate. As we continue towards our goal of becoming a mid-tier precious metals producer, we remain committed to accountability, environmental stewardship and the well-being of our people and communities."

The 2025 Sustainability Report is available on Integra's website using the following link:

About Integra Resources

Integra is a growing precious metals producer in the Great Basin of the Western United States. Integra is focused on demonstrating profitability and operational excellence at its principal operating asset, the Florida Canyon Mine, located in Nevada. In addition, Integra is committed to advancing its flagship development-stage heap leach projects: the past producing DeLamar Project located in southwestern Idaho and the Nevada North Project located in western Nevada. Integra creates sustainable value for shareholders, stakeholders, and local communities through successful mining operations, efficient project development, disciplined capital allocation, and strategic M&A, while upholding the highest industry standards for environmental, social, and governance practices.

ON BEHALF OF THE BOARD OF DIRECTORS

George Salamis
President, CEO and Director

Forward Looking and Other Cautionary Statements

Certain information set forth in this news release contains "forward-looking statements" and "forward-looking information" within the meaning of applicable Canadian securities legislation and in applicable United States securities law (referred to herein as forward-looking statements). Except for statements of historical fact, certain information contained herein constitutes forward-looking statements which includes, but is not limited to, statements with respect to: the Company's sustainability strategy, the economic and social benefits to be derived from the Company's operations and its community programs;

and the future financial or operating performance of the Company and its projects. Forward-looking statements are often identified by the use of words such as “may”, “will”, “could”, “would”, “anticipate”, “believe”, “expect”, “intend”, “potential”, “estimate”, “budget”, “scheduled”, “plans”, “planned”, “forecasts”, “goals” and similar expressions.

Forward-looking statements are based on a number of factors and assumptions made by management and considered reasonable at the time such statement was made. Assumptions and factors include: the Company’s ability to complete its planned exploration and development programs; the absence of adverse conditions at Florida Canyon and the Development Projects; no unforeseen operational delays; no material delays in obtaining necessary permits; results of independent engineer technical reviews; the possibility of cost overruns and unanticipated costs and expenses; the price of gold remaining at levels that continue to render Florida Canyon and the Development Projects economic, as applicable; the Company’s ability to continue raising necessary capital to finance operations; and the ability to realize on the mineral resource and reserve estimates. Forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to: general business, economic and competitive uncertainties; the actual results of current and future exploration activities; conclusions of economic evaluations; meeting various expected cost estimates; benefits of certain technology usage; changes in project parameters and/or economic assessments as plans continue to be refined; future prices of metals; possible variations of mineral grade or recovery rates; the risk that actual costs may exceed estimated costs; geological, mining and exploration technical problems; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing; risks related to local communities; the speculative nature of mineral exploration and development (including the risks of obtaining necessary licenses, permits and approvals from government authorities); title to properties; and other factors beyond the Company’s control and as well as those factors included herein and elsewhere in the Company’s public disclosure. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in the forward looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. Readers are advised to study and consider risk factors disclosed in Integra’s Annual Information Form dated March 24, 2026 for the fiscal year ended December 31, 2025, which is available on the SEDAR+ issuer profile for the Company at www.sedarplus.ca and available as Exhibit 99.1 to Integra’s Form 40-F, which is available on the EDGAR profile for the Company at www.sec.gov.

Investors are cautioned not to put undue reliance on forward-looking statements. The forward-looking statements contained herein are made as of the date of this news release and, accordingly, are subject to change after such date. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws. Investors are urged to read the Company’s filings with Canadian securities regulatory agencies, which can be viewed online under the Company’s profile on SEDAR+ at www.sedarplus.ca.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
